

„I like this eBook because I can see the pictures and listen to the words at the same time. This makes me not to forget the lesson too easily.“

„I like the eBooks because we learn how to work as a team and secondly we learn how to water the animals in an organised way and lastly even the children when they watch they acquire the knowledge and practice it in the future“.

„These eBooks teach us how to
read and write even if we have
never been to school“

giz Deutsche Gesellschaft

„I love the eBooks because they teach us to control soil erosion and evaporation through tree and grass planting. Additionally we also learn how to protect our valley tank using the fence.“

„The reason why I like these eBooks is that they have shown us farming practices. Even our young children who have been here with us and who have attended the lessons will acquire the necessary knowledge and put it into practice when they grow up.“

true-to-life interactive multimedia learning tools

Petra Dilthey & Uli Schwarz

Appreciation of cultural values and traditional knowledge are important for a successful bottom-up approach and helps to strengthen the identity of the target group.

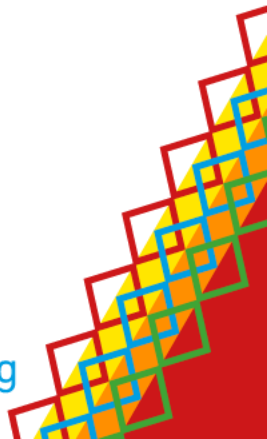

Closing the digital gap should start from the bottom in order to reach a digital infrastructure for everybody.

Eem.org provides digital solutions for PCs, Laptops, tablets and smartphones.

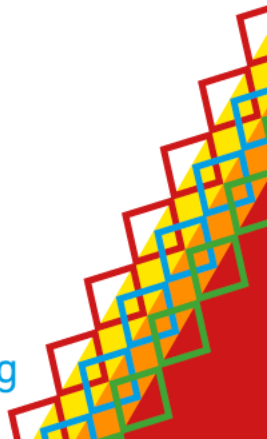

The eBooks can be used in the field and other educational settings like schools.

Digital multimedia eBooks are a perfect extension to any development project.
