FOOD SYSTEMS RESILIENCE PROGRAM FOR EASTERN AND SOUTHERN AFRICA PHASE 1
Key Issues in the IGAD Region

- IGAD is an agrarian region.
- Agriculture [crop, livestock and fisheries] is the backbone of economy
  - Employing 80 percent of the population
  - Contributing 43 percent of the overall GDP
  - 70 percent of the export earnings
- Only 15 percent of the arable land is cultivated
- Estimated 200 million livestock population (the largest in Africa)
- Total fish production about 1 million tons per year
- Diverse natural resource base and biodiversity
- In spite of the marginal increase in food production, food and nutrition insecurity still remained high in the region.
FOOD SYSTEMS RESILIENCE PROGRAM FOR EASTERN AND SOUTHERN AFRICA: AS PHASE 1 UNDER THE MULTI-PHASE PROGRAMMATIC APPROACH

NATIONAL COMPONENT

THE FEDERAL DEMOCRATIC REPUBLIC OF ETHIOPIA
THE REPUBLIC OF MADAGASCAR

REGIONAL COMPONENT

• THE INTERGOVERNMENTAL AUTHORITY ON DEVELOPMENT (IGAD)

• THE CENTRE FOR COORDINATION OF AGRICULTURAL RESEARCH AND DEVELOPMENT FOR SOUTHERN AFRICA (CCARDESA)
## Expected Participating Countries and Entities

$1.7 billion MPA Program (about 50% this FY and 50% in future phases)

Around four pillars

Providing a flexible menu of activities for countries and regional organizations to draw on.

**Pillar I:** (Re)Building Resilient Productive Capacity

**Pillar II:** Managing Natural Resources Sustainably

**Pillar III:** Enhancing Markets and Commercialization

**Pillar IV:** Strengthening National and Regional Policies
IGAD Component 1: (Re-)Building Resilient Agricultural Production Capacity

• IGAD will contribute to building the resilience of regional food supply to shocks and stressors through multiple activities.

• Subcomponent 1.1: Developing National or Regional Agricultural Information Systems

Specifially, IGAD will (a) strengthen existing regional research centers and establish new national and regional research centers.

• Subcomponent 1.2: Developing and Delivering Agricultural Technologies and Services

• IGAD will also (b) promote regional climate-smart agricultural R&D

• IGAD will (c) support the scaling up of CSA initiatives in HoA
Component 2: Supporting the Sustainable Development of Natural Resources for Resilient Agricultural Landscapes

- IGAD will support and coordinate transnational and regional technical assistance, analytical and advisory work, and training efforts, especially on topics related to sustainable management of transboundary natural resources.

- **Subcomponent 2.1: Identification and Validation of Interventions at the Local or Watershed Level**

- **Subcomponent 2.2: Investments in Sustainable Natural Resources Management**
Component 3: Getting to Market

• To support the development of competitive agrifood value chains and well-functioning marketing infrastructure, IGAD will support HoA member states in taking full advantage of the AfCFTA and other intraregional trade and value addition opportunities.

• Subcomponent 3.1: Developing Competitive Value Chains

• Subcomponent 3.2.: Upgrading Marketing Infrastructure
Component 4: Promoting Food Systems Resilience in National and Regional Policymaking

• IGAD will support national government agencies and regional organizations in ways that pertain to high-level policies, initiatives, institutional arrangements, and even budgeting decisions that have cross-cutting relevance to food systems resilience

• Subcomponent 4.1: Making Food Systems Resilience a Priority in Public Policies and Spending

• Subcomponent 4.2: Building the Capacity to Implement Resilience-Focused Policies

• Subcomponent 4.3: Supporting Regional Organizations to Build Food Systems Resilience Transnationally
Implementation Arrangement

- The overall responsibility for the implementation and oversight of the IGAD Project will lie with the IGAD’s Agriculture and Environment Division (AED).

- PCU will be under the supervision of the PM of AFSU. Specialized institutions (ICPAC, ICPALD, ISTVS), AED, ECRID and SHD will implement the different components.

- Regional Coordination Committee (RCC) composed of the regional organizations to address cross-regional issues

- The PCU will have the following staff:
  - (i) project coordinator, (ii) policy officer, (iii) gender officer, (iv) research/innovation officer, (v) procurement officer, (vi) project accountant, (vii) environment expert, (viii) monitoring, evaluation and learning officer, and (ix) project assistant.
## Budget and Duration

- **Duration:** 16 June 2022 to 29 June 2029
